

## Pasture Bunks

SI Precast Concrete feed bunks are ideal for pasture or feed lot usage. Feed bunks are manufactured with 5000# psi concrete and reinforced with 1/2" steel rebar and 10 gauge wire creating a concrete feeder that is durable and long lasting.

SI Precast Concrete feed bunks are cast with attached legs and are equipped with drain holes ensuring a low maintenance product that is stronger and less expensive than steel..

*Large feed bunk.*

*Small feed bunk*

***These may be the last bunks you ever purchase!***
